SUBJECT: Sewer Tappers License Renewal For 2018

To Whom It May Concern,

I hope you have all had a good year! It's now time to begin preparing for 2018. In order to pull MSD tap permits, you need to renew your tappers license. In order to renew, please send us the following items:

1. Tappers Application, completed for each individual that has passed the licensing test.
2. Official bond form or continuation certificate.
3. License fee of \$170. NOTE - THIS IS A CHANGE OVER LAST YEAR!

All licensing paperwork should be directed to:

Metropolitan Sewer District
Development Services Branch/Permits Section
Attn: Ms. Angie Bradley
1600 Gest Street
Cincinnati, Ohio 45204

After MSD processes the three items above, a 2018 Sewer Tappers License will be sent to your company. Please note that it is extremely important to submit these items in a timely manner to prevent delays in the permitting process for 2018.

As of 1 May 2017, Stormwater Management Utility is no longer part of MSD. If you are working on a storm water project (downspouts, inlets, drains, etc) in the City of Cincinnati, please contact SMU at 591-5050.

MSD would like to remind you of several important items and policies:

- The tap-in-fees for 2018 are scheduled to be adjusted according to MSD Rules and Regulations Section 1215. The new fees will become effective on 1 January 2018. Enclosed is the proposed 2018 schedule for your information. Any permit applications with tap-in-fees received on or before close of business 31 December 2017 will be processed at the current 2017 rate. All applications with tap-in-fees received after that date are to reflect the 2018 fee schedule. Please contact Development Services at (513) 244-1330 to confirm the appropriate tap-in-fee prior to the submission of your application.
- In accordance with MSD Rules and Regulations, Section 1215 (B)(11)(c) a tap-in-fee is required when a plumber increases the domestic water meter size, with a credit given for the old domestic meter size, even when a MSD tap permit is not required. Please note that you are responsible to communicate to your client that a MSD tap-in-fee is necessary when a project requires additional domestic water. MSD receives daily reports from Greater Cincinnati Water Works on the plumbers who purchase water meters.
- You are required to have a MSD inspector ensure that construction is performed as per MSD Rules & Regulations. Please have the trench, bedding and new pipe exposed for their inspection and perform the backfill over the pipe as per their direction. For permit inspection, please contact our Field Office at 244-5537 between

the hours of 7:00 am and 9:00 am. A representative from your company is to be at the job site when the inspection is performed to review and discuss any issues.

- Special permits are required from this office for all sewer tap repairs including sewer lining and pipe bursting projects. We understand some repairs are urgent and at times can be classified as an emergency repair. These applications will be handled with an equal sense of urgency and can be emailed to MSDTapPermits@cincinnati-oh.gov
- MSD Rules and Regulations and Standard Construction Drawings are available for review on the MSD web site at http://msdgc.org/customer_care/forms_and_documents/index.html. Copies of the Standard Construction Drawing booklet are available for purchase at the MSD, Tap Permit/Customer Service Counter for a cost of \$8.00.
- MSD Rules & Regulations, Section 1213 indicates that MSD can charge additional inspection time for (1) return trips due to lack of expected progress, (2) emergency conditions necessitating immediate response and (3) abnormal working hours. In the opinion of the MSD Field Office, if the above construction situations occur, MSD will charge additional time and your company will be billed for special services of inspection time at a rate per hour. See the enclosed fee schedules regarding the rate per hour.

MSD Development Services business hours are 7:30am to 4:00pm, Monday through Friday, excluding holidays. We are located at 1035 Woodrow St. 45204. If you have any questions concerning the above, please contact Rob Kern, Permitting Supervisor, at (513) 244-5588 or Angie Bradley at (513) 244-1324.

Sincerely,

Pat Arnette, P.E.
