For 2015 the proposed increase is 5.5%. Minimum charges and volume rates are increased by 6.0 percent while sewerage surcharges and industrial pretreatment charges are kept constant at the existing rates.

The average residential customer (5/8" water meter size and 25 ccf water usage) will see his or her quarterly annualized bill go from \$199.45 to \$211.41. This is an increase of \$11.96 per quarter, \$3.99 per month or 13¢ per day.

The 2015 rate increase will be effective January 9, 2015. MINIMUM CHARGE

The sewerage service charge shall consist of a minimum charge and a commodity charge.

The minimum charge shall be based on the size of the water meter used to serve the premises, or the size of the premises served, as determined by the number of units therein, whichever results in the larger minimum charge.

The size of the premises shall be determined by the total number of residential and/or commercial and industrial units that comprise the premises.

- 1. Design = 1 resolution - authorizing preparation of detailed plans, specifications, and estimate of cost and appropriating funds for the same.

Such minimum charge shall include the charge for the first 500 cubic feet of water used in the case of monthly bills; and the first 900 cubic feet of water used, in the case of quarterly bills.

The minimum charge rates shall be as follows:

Meter Size (inches)	Number of Family Units	Monthly Bills \$	Quarterly Bills \$
3/8	1	57.11	117.35
1/2	2 or 3	68.49	151.32

8		2,970.50	8,360.75
10	Over 250	3,458.83	9,653.24
12			

For trailer parks, the number of family units shall be 75 percent (75%) of the available occupancy.

For hotels and motels, the number of family units shall be 50 percent (50%) of the available occupancy.

For commercial establishments each two sets, or part thereof, of sanitary facilities shall be counted as one family unit. A set of sanitary facilities shall be any grouping of water using plumbing fixtures whose total instant demand is not greater than the total instant demand of five, one-half inch, water faucets. Where commercial or manufacturing facilities require more water than required for sanitary purposes, the minimum charge shall be not less than the minimum charge for a meter one size smaller than the branch serving the premises.

COMMODITY CHARGE

The Commodity Charge shall be based on the quantity of water used on the premises served as same is measured by a water meter or meters therein used, which meters must be acceptable to the City of Cincinnati.

The Commodity Charge shall be as follows:

Monthly Bills	Quarterly Bills
For each 100 cubic feet consumed per month in excess of 500 cubic feet but not in excess of 5,000 cubic feet \$5.879 per 100 cubic feet	For each 100 cubic feet consumed per quarter in excess of 900 cubic feet but not in excess of 15,000 cubic feet \$5.879 per 100 cubic feet
For each 100 cubic feet consumed per month in excess of 5,000 cubic feet \$4.701 per 100 cubic feet	For each 100 cubic feet consumed per quarter in excess of 15,000 cubic feet \$4.701 per 100 cubic feet

For residential water service accounts (one and two family residences), a quarterly minimum and commodity charge shall be based upon water used during a winter quarterly billing period; said winter period being the quarterly billing period most closely corresponding to usage during the months of October through April. Said charges shall be payable with each bill rendered throughout the year.

SURCHARGE

For customers having high strength waste discharge, the surcharge, which is in addition to the metered use charge, shall be computed on the following basis:

SURCHARGE²	
Suspended Solids (SS)	\$0.002756 per 100 cubic feet for each mg/l of SS strength above 300 mg/l
Biochemical Oxygen Demand (BOD)	\$0.004707 per 100 cubic feet for each mg/l of BOD strength above 240 mg/l
Nitrogenous Oxygen (NOD)	\$0.004122 per 100 cubic feet for each mg/l of Total Kjeldahl (TKN) strength above 25 mg/l

Provided, however, that to the extent the strength of a pollutant is less than eighty percent (80%) of the corresponding value for normal strength sewage, a credit shall be allowed as an offset against surcharge otherwise due. The credit shall be calculated by multiplying the herein above specified surcharge rate for the pollutant in question times the difference between actual pollutant concentration in mg/l and eighty percent (80%) of the corresponding value for normal sewage. No credit shall be allowed in excess of surcharge otherwise due.

INDUSTRIAL PRETREATMENT CHARGE

All users required to apply for and obtain a wastewater discharge permit or which are subject to federal pretreatment standards, as specified in the RULES AND REGULATIONS GOVERNING THE MAINTENANCE, OPERATION, AND USE OF SANITARY AND COMBINED SEWERS IN THE METROPOLITAN SEWER DISTRICT OF GREATER CINCINNATI ("MSD Rules and Regulations") (2001 and as amended), shall be subject to the payment of a pretreatment charge(s), as determined by the Director. Said pretreatment charge(s) shall be sufficient to recover, in whole or in part, the costs for the MSD Pretreatment Program including investigations, record keeping, administration, and monitoring of industrial waste discharges to the system. Each industrial user shall pay a pretreatment charge(s) as follows:

INDUSTRIAL PRETREATMENT CHARGE¹	
Annual Fee	\$2,889 per annum
Monitoring Charge	\$17,912 maximum per monitoring event

Any user which discharges any toxic pollutants which cause an increase in the cost of managing effluent or sludge from the District's treatment system shall pay such increased costs.

That the sewerage service charges, surcharges, and industrial pretreatment charges shall be applied in accordance with the provisions of the MSD Rules and Regulations and as may be modified from time to time.

1. These surcharges have not been modified from the 2013 surcharge levels as per the instructions of Hamilton County Administration.
