## **TRAFFIC ALERT: Lick Run Greenway**

*Lane Restrictions on Queen City Avenue at Harrison Avenue  
in South Fairmount on Sunday, December 2*

CINCINNATI – Construction of the nationally recognized Lick Run Greenway project in South Fairmount began in July 2017 and will continue into spring 2020. The \$90 million Greenway includes a mile-long bioengineered creek in a park-like setting through the valley corridor.

This project will impact traffic in South Fairmount throughout the course of construction, including full road closures and lane restrictions. *All work is weather and schedule dependent.* A breakdown of the latest traffic pattern changes is below:

### **Traffic Pattern Change on Queen City Avenue**

Queen City Avenue at Harrison Avenue in South Fairmount will be down to one lane all day on Sunday, December 2, starting at around 7 a.m. and continuing into the evening (up to 9 p.m.), pending weather and field conditions.

The northbound and southbound lanes on Harrison Avenue at Queen City Avenue will remain open, but there could be temporary delays due to equipment maneuvering.

Construction crews are completing paving work in the area, in anticipation of an upcoming lane shift for traffic on Harrison Avenue north of Queen City.

**All Traffic Pattern Changes Currently in Place:**

The following traffic pattern changes are currently in place. If you are driving in the area, please plan for delays, drive with caution, or find an alternate route.

- Closure of southbound State Avenue between the ramp from Harrison Avenue and Queen City Avenue. The northbound lane is open.
- Partial opening of new Harrison Avenue between Westwood and Queen City avenues. Two southbound lanes and one northbound lane (from the lower deck of the Western Hills Viaduct) are currently open.
- Closure of Quebec Road between Westwood and Queen City avenues.
- Continuous left turn onto Westwood Avenue from White Street. No left turns from Westwood onto White Street.
- Various temporary lane restrictions along Queen City Avenue, Westwood Avenue, and adjacent streets for the relocation of utilities and/or construction of new sewer segments.
