MSD Notice of Construction

CSO 54 Improvements in Pleasant Ridge

CINCINNATI – The Metropolitan Sewer District of Greater Cincinnati (MSD) and its contractor, Larry Smith, Inc., will begin replacing a regulator chamber and constructing 20 linear feet of outfall pipe and an access drive at CSO 54 in Pleasant Ridge. The project will begin September 10 and is scheduled to be completed during the first quarter of 2019.

Please see the attached map.

Construction activities will occur generally between 7:00 a.m. and 5:30 p.m. Monday through Friday. Some weekend work may be necessary at times.

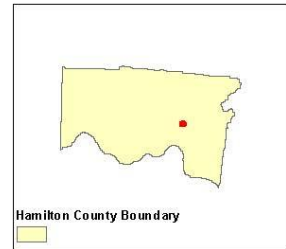

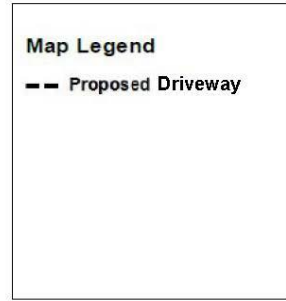

Parking along Milan Avenue may be limited to allow for construction equipment in the area nearest the construction site. In addition, typical construction-related disturbances such as noise, dirt and vibrations should be expected throughout the construction period.

This project is part of Project Groundwork, MSD's multi-year plan to reduce sewer overflows into streams and rivers in Hamilton County. Project Groundwork will improve the quality of our lives through cleaner streams, improved protection of public health, and enhancement of the communities where we live, work, and play.

For additional information about the project, please contact MSD Engineering Customer Service at (513) 557-3594 or MSD.Communications@cincinnati-oh.gov.
