SSO 228 Elimination Project Update: *Lane Restrictions along Montgomery Road*

CINCINNATI – Starting the week of July 9, lane restrictions will occur along Montgomery Road between Kennedy Avenue and Beechview Circle in Kennedy Heights to install new sewer pipe.

Traffic on this portion of Montgomery Road will be restricted to one lane in each direction from 9:00 a.m. to 4:00 p.m. on weekdays. The full roadway will re-open after 4:00 p.m. nightly and generally all day on weekends.

The lane restrictions will be in effect through early fall 2018. Please plan accordingly to avoid delays.

The Metropolitan Sewer District of Greater Cincinnati (MSD) and its construction contractor, Ford Development Company, are installing relief sewers in this area to help eliminate sanitary sewer overflows from SSO 228 into the Mill Creek. The project began in May and should be complete by February 2019, weather permitting.

Please see the attached project map.

In addition to traffic inconveniences, typical construction-related disturbances such as noise, dirt and vibrations should be expected throughout the construction period.

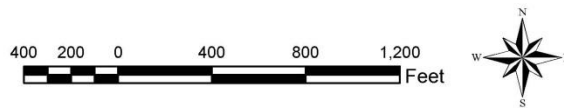

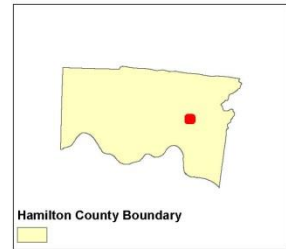

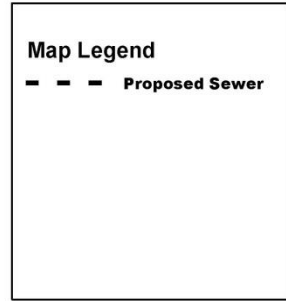

This project is part of Project Groundwork, MSD's multi-year plan to reduce sewer overflows into streams and rivers in Hamilton County. Project Groundwork will improve the quality of our lives through cleaner streams, improved protection of public health, and enhancement of the communities where we live, work, and play.

For additional information about the project, please contact MSD Engineering Customer Service at (513) 557-3594 or MSD.Communications@cincinnati-oh.gov.
