Notice of Construction and Traffic Alert for Bond Hill

Traffic and Non-Toxic Odor Impacts on Towanda Terrace and Cheyenne Drive

CINCINNATI – Traffic impacts and non-toxic odors will occur along and in the vicinity of Towanda Terrace and Cheyenne Drive in Bond Hill on September 30 – October 1, as the Metropolitan Sewer District of Greater Cincinnati (MSD) relines a deteriorated sewer in the area.

Please see the attached project map.

The work is expected to start at 8:00 a.m. on Tuesday, September 30, and continue into the early morning hours of Wednesday, October 1. MSD is relining a 36-inch-diameter sewer between a manhole near 1134 Towanda Terrace and a manhole near 1133 Cheyenne Drive using a cured-in-place pipe (CIPP) lining process. This is a trenchless technology, so no excavation work will occur, but the curing process does create non-toxic odors.

If anyone experiences odors inside their home or business, they should add water to their floor drain trap if it is dry.

Lane restrictions should be expected in the vicinity of the work on Towanda Terrace and Cheyenne Drive. Local access to homes will be maintained, but there could be delays. Please plan accordingly.

MSD's contractor, Inliner Solutions, will perform the work.

For additional information about the MSD project, please contact MSD Customer Service at (513) 244-1300 (option 5) or MSD.Communications@cincinnati-oh.gov.
