Notice of Construction and Traffic Alert for Norwood

Minor Traffic Impacts and Non-Toxic Odors in the 4000 blocks of Forest and Burwood avenues on December 2-3

CINCINNATI – Minor traffic impacts and non-toxic odors will occur in the 4000 blocks of Forest and Burwood avenues between Williams and Shanmoor avenues in Norwood on December 2-3, pending weather and field conditions. The Metropolitan Sewer District of Greater Cincinnati (MSD) is relining a deteriorated sewer in the area.

Please see the attached project map.

The work is expected to start at 8:00 a.m. on Tuesday, December 2, and continue into the early morning hours of Wednesday, December 3. The work will be delayed by one day if bad weather impacts work. MSD is relining a 36-inch-diameter sewer between a manhole adjacent to 4012 Forest Avenue and a manhole adjacent to 4012 Burwood Avenue. This is a trenchless technology, so no excavation work will occur, but the curing process does create non-toxic odors.

If anyone experiences odors inside their home or business, they should add water to their floor drain trap if it is dry.

Lane restrictions may occur near the manholes on Forest and Burwood avenues. Local access to homes will be maintained, but there could be delays. Please plan accordingly.

MSD's contractor, Inliner Solutions, will perform the work.

For additional information about the MSD project, please contact MSD Customer Service at (513) 244-1300 (option 5) or MSD.Communications@cincinnati-oh.gov.
